FUN FACTS ABOUT YOUR FOOD

Q: I used everything else in the taco recipe, but what can I use these *Lemon Cucumbers* for?

Lemon Cucumbers are mild, slightly sweet, and are great for fresh salads, pickling, or snacking.

With delicate skin and juicy flesh, **Lemon Cucumbers** add crispness to sandwiches or make a refreshing snack, and their mild flavor allows them to easily replace regular cucumbers, adding visual appeal with their bright, lemon-like appearance.
